Interior Design Associate Degree

The Interior Design Associate Degree program is designed to prepare students for positions within the interior design profession. This program integrates problem-solving abilities, aesthetics, technical skills, and communication skills in planning and designing interior space.

Upon completion of the Associate of Applied Business degree with a major in Interior Design, the Davis College graduate will be prepared to:

Apply the elements and principles of design to create a visual language appropriate for interior design, which includes the creation and drafting of functional space plans and floor plans and the incorporation of finishes, window treatments, and furniture into a cohesive interior environment.

Use technology that is appropriate for interior design professional practice including industry standard computer aided drafting software.

Analyze and evaluate his/her work in terms of the design elements and principles, project requirements, and client needs.

Apply the principles and intentions of the General Education and Business Core purposes.

Develop a Career Portfolio

The student needs to complete Mid-Program and End-of-Program Assessment. Student handbook provides more detail on this process.
